Electro-Galvanic REGENERATOR

is something absolutely new in medicine, a perfect little wonder, performing cures in the most
obstinate cases of Loss of Power, Nervous Debility, Atrophy of the parts, etc.,
without trouble or attention on the part of the person using it. It is so plain and simple in its
construction that anyone can apply it. Its effects are almost instantaneous, and the good results
go on increasing from day to day.

IN EXHAUSTION The constant current of galvanism flowing directly through the
nerves affects, stimulates and strengthens them, and by re-
storing contractile power to the seminal vesicles and ducts,
prevents the constant drain and flow of vital fluid which so weakens and destroys.

IN BLADDER DISEASES Persons having inflammation of the bladder, Painful Urina-
tion, Gravel, Enlarged Prostate Gland, and like Disorders,
should never give up hope until they have tested the Regenerator. Its action in such com-
plaints is marvellous, and in our possession very plainly shown.

VARICOCELE cured easily and painlessly by our new method.
IN HEADACHE, NEURALGIA, SCIATICA, RHEUMATISM, and all painful Nervous Af-
fections, the gentle current which flows from the Regenerator is truly a natural remedy,
it is easily applied to any affected part, and its results are almost instantaneous.

THE REGENERATOR RECOMMENDS ITSELF! We depend for the extension of our business
upon the recommendations of grateful and pleased patients who have used the Regenerator,
and are willing to acknowledge its merits. SEND 48c and get one of these Little Medical Marvels,
and if it is not exactly as represented, you can have your money back, for we can always find
plenty of customers. WHEN OTHERWISE SOUND you find the power lost or declining, with
this in this appliance a most useful and worthy little instrument, and it will prove of the greatest
value to all who are weak, nervous or debilitated. SEND 48c number among our patrons and
patients. **SENT POST-PAID, SECURELY SEALED, UPON RECEIPT OF PRICE, 48c.** Full

The Scene of the Disaster Norton Fitzwarren Station, Where a Special Passenger Train Dashed Into a Goods Train—Serious Election Disorders in the Argentine Republic—Discontent in Belgium—Grand Duke Nicholas of Russia a Having Maniac—The Czar's Visit to the Revolution in Honduras—Lord Salisbury's Speech—Foreign News.

LONDON, Nov. 11.—The feeling of discon-
tents in Belgium is by no means confined to
Brussels, but it is quite general throughout
the country and agitators are everywhere
urging the people to concerted acts of violence.
At a village called Genbrug recently
a crowd endeavored to rescue a deserter
whom the police were arresting and the latter
were compelled in self-defense to fire on the
rioters. Collisions between the people and the
authorities have also occurred at several
other places. Great anxiety prevails in the
larger cities.

The Russian Grand Duke Nicholas.

LONDON, Nov. 11.—Harrowing accounts
have been received of the condition of the
Russian Grand Duke Nicholas, now confined at
Alupka in the Crimea. During one of his violent
fits he nearly strangled an attendant who
tried to calm him, so that the man's recovery
is doubtful. The physicians admit that there
is no prospect of saving the life of the Grand
Duke, who is rapidly becoming a physical
wreck.

The Czar's Visit to the Revolution.

BERLIN, Nov. 11.—It is understood here
that the tour of the Russian Czar to the
young Prince is accompanied by M. Onof, for
a long time dragoman to the Russian embassy
at Constantinople, and familiar with Eastern
languages and the methods of Oriental courts,
and who, it is believed, will act in some re-
spect as an envoy of the Czar in the interests
of Russia.

The Von Caprivi-Crispien Conference.

LONDON, Nov. 11.—The Rome correspondent
of the Chronicle and the Berlin correspondent
of the News state that during the recent con-
ference of Chancellor Von Caprivi and Pre-
mier Crispien, the latter proposed a mutual
reduction of tariff rates, arguing that Italy
was principally interested in the reduction of
the wine rates, and those on raw silk and oil.

Lord Salisbury's Speech.

LONDON, Nov. 11.—Following his installa-
tion into office, Joseph Savory, Lord Mayor of
London, gave the usual banquet to the Min-
istry in the Guild Hall last night, at which some
significant speeches were made.

Reply to the Mayor of "The Army."

Right Hon. Edward Stanhope, Secretary of
State for War, announced that the regular
army, at home and abroad, would early in
1891 be armed with the new magazine rifle,
which had been proved entirely satisfactory.

"The Government" was responded to by
Lord Salisbury, who prophesied peace and
good will among the nations, as indicated by
the visit of the Czar to India as the guest
of the Queen; showing the growth of
friendly ideas in Russia regarding the Indian
question; the African agreement made with
Germany; and the general relation of England
with Italy, Portugal and other nations.

Lord Salisbury said that the McKinley bill
would of course affect some portions of British
commerce, and that while the British
American situation might be rejoiced over by
free traders there was every reason to sup-
pose that England must still face the prob-
lem of American prohibitive duties, for which
there could be no retaliatory measures. The
Premier believed the McKinley bill was due
to the belief that American goods had not re-
ceived proper treatment in Europe.

Discussing the relations between labor and
capital, Lord Salisbury said the Government
would not interfere in such questions. An
eight-hour law would, however, mean the
restriction of commerce of other countries
whose labor was not so embarrassed. The
English desire to augment and consolidate
English territory was defended by the Pre-
mier on the grounds that all other countries
were protective, and England would have to
cope with the tariff with her own possessions.
He regarded the tariff question as the conflict
of the future.

The Premier declined to enter into political
prophecies on the ground of their recently
demonstrated uncertainty.

The Honduras Revolution.

LA LIBERTAD, Nov. 11.—There has been a
revolt in Honduras. It has been expected for
months, and has been threatening ever since
the conclusion of hostilities between Guate-
mala and Salvador. The first outbreak of the
revolution was at Tegucigalpa, where the
garrison, under the leadership of
Gen. Longino Saucedo, took possession
of the Government buildings. There have
been many skirmishes in the streets and
President Luis Bogran is besieged in one of
the central wards of the city. He will be forced
to surrender unless outside assistance arrives
very shortly. The border garrisons are be-
ing carried by forced marches to the assist-
ance of Sanchez and the only one expected to
aid President Bogran is on the eve of revolt
as the men have not been paid for some time
past and are generally discontented. Bogran
has been looked upon as being in league with
Barillas and has certainly succeeded in bank-
rupting the country. Guatemala, Salvador
and Nicaragua will remain neutral throughout
and let the strife be settled at home. The
probabilities are that the State will be
divided and by common consent annexed to
the other States. Should Barillas endeavor
to establish himself as a general, a general
outbreak in Central America, and Costa
is prepared to assail him with Nicaragua and
Costa Rica at his back.

THE NEWS CONFIRMED.

SAN SALVADOR, Nov. 11.—Gen. Estela has re-
ceived telegrams confirming the news of an
outbreak in Honduras and says that it must
be settled internally unless Barillas attempts
to interfere.

A Warm Discussion.

CITY OF MEXICO, Nov. 11.—Deputy Juan A.
Mateos in the Chamber of Deputies yesterday
made a motion calling upon Deputy Gonzalo
Estara, proprietor of the National, to respond
to an interpellation why he should not be ar-
rested before the Chamber for inserting that
body in an article criticizing a speech of Ma-
teos in the introduction of his Catholic priest
expulsion bill. Gonzalo Estara, also a Deputy
and editor of the Nacional, said he would as-
sume all responsibility for the said criticism.
A warm discussion will be heard in the Cham-
ber to-day on this subject and very probably
several duels will be fought as an outcome.

on any vessels with members of the Seamen's
and Tradesmen's Union, recently or-
ganized with headquarters at Cardiff. The
latter is looked upon as practically an organi-
zation in the interests of the employers.

A FREE LABOR ORGANIZATION.

A free labor association has been formed at
Southampton, consisting of workmen and
employers. It is an outgrowth of the recent

strike at that port, and the chief object is to
insure the entire freedom of labor. Over
1,000 workmen have already joined the associ-
ation.

THE IRISH DELEGATES.

PRESIDENT HARRISON WILL NOT ATTEND THE WASHINGTON RECEPTION.

Neither Will Secretary Blaine—Messrs. Dil-
lon and O'Brien Fugitives From Justice—
Official Recognition Would Be an Act of
Disrespect to the British Government—
Liberal Contributions for the Sufferers in
Ireland.

WASHINGTON, D. C., Nov. 11.—Neither
President Harrison nor Secretary Blaine will
attend the Irish-American reception to
Messrs. Dillon and O'Brien at Washington.
The attendance of either would, it is credibly
stated, be treated as a marked act of dis-
respect to the British Government, and would
probably be regarded, diplomatically,
as so serious an offense as to call for notice in
the form of protest to the State Department
by the British Minister. The legal position of
Messrs. Dillon and O'Brien is that of fugitives
from justice. If the offense charged against
them was not one directed against the
operations of public government in a part of
the United Kingdom, the participation of Gen.
Harrison or Mr. Blaine in any welcome ex-
tended to them in this country would be held
by Lord Salisbury to be a mere matter of per-
sonal taste or judgment. The charge
against them is one to obstruct and defeat
the laws of the realm, and any countenance
given to them by the President or Secretary
of State would be resented in the usual diplo-
matic manner.

Other members of the Cabinet other than
the Secretary of State are free to take part in
the reception of Messrs. Dillon and O'Brien
without a breach of international propriety.
None are expected to do so, however, except
possibly Secretary Tracy. If Mr. Farnell
could be reached by cable he would probably
be asked, in view of the approaching visit of
his two lieutenants to the American capital,
to indicate frankly to the supporters of the
Irish Parliamentary party here what the au-
thoritative position of that party is toward
the plan of campaign which Messrs. Dillon
and O'Brien are to advocate here in a public
meeting of representative Irish-Americans.
They are much perplexed over the matter.

It is stated by a prominent Irishman here
that it is very certain that particular care will
be taken by the committee of arrangements,
which are in the hands of the American
officials, to ensure that no admittance will be
given to the reception, as it would react upon
the cause and embroil the administration with
its enemies. The visit of Messrs. Dillon and
O'Brien is entirely disavowed in its nature
from the visit made to this country by Messrs.
Edmond and O'Connor during the last ad-
ministration. To ensure that no admittance
would be given to the reception, as it would
react upon the cause, it is thought, and the making
of friends, which is one of the objects of the
visit of the distinguished Irishmen to this
country.

The Conservative Press.

LONDON, Nov. 11.—The leading Conservative
newspapers comment on the withdrawal of
the appeal for funds by the American Com-
mittee on the Irish famine as a confession
that no famine exists and that there is no real
need of any relief. Let particular care be
taken by the committee of arrangements, which
are in the hands of the American officials, to
ensure that no admittance will be given to
the reception, as it would react upon the
cause and embroil the administration with
its enemies. The visit of Messrs. Dillon and
O'Brien is entirely disavowed in its nature
from the visit made to this country by Messrs.
Edmond and O'Connor during the last ad-
ministration. To ensure that no admittance

Liberal Contributions.

NEW YORK, Nov. 11.—There were some 4,000
people assembled at the Metropolitan Opera-
house last night at the reception given by
the Irish societies to Messrs. O'Brien, Dillon,
O'Connor, Sullivan, Harrington and Gill.
The Sixth Regiment Band was in attendance
during the evening.

Gov. Abbott of New Jersey, Eugene Kelly,
Judge Chas. B. Daly, Dr. McQuinn and Gov.
Ellis were conspicuous in the audience.

Messrs. Dillon and O'Brien made brief speeches
when the subscriptions were announced. Eugene
Kelly gave \$1,000, J. J. O'Donoghue \$1,000,
Mayor Grace \$1,000, John Byrne \$1,000, Mayor
Grant \$1,000 and many others smaller amounts.
Thirty-three thousand dollars in all was sub-
scribed and \$4,000 taken at the door.

THE CITY'S GARBAGE.

HOW TO DISPOSE OF IT FLEXIBLY THE COUNCIL.

Two Ordinances and a Contract to Be Considered—Business Transacted at the Board of Public Improvement Meeting Yesterday—The "Evening Call" Will Get the Printing Contract—City Hall News.

Within a very short time the Sanitary Committee of the Council will be forced to make up its mind, which it does not seem able to do without assistance. There are two garbage ordinances in the committee box, and there will be a garbage contract in for approval which is in direct conflict with the two ordinances.

Upon the defeat of the last garbage grab contract Mr. Nelson of the Council introduced an ordinance to head off the repetition of the same procedure. The ordinance was as follows:

An ordinance repealing Ordinance No. 15,718, entitled an ordinance authorizing the Mayor and Health Commissioner of the city of St. Louis to enter into a contract for the sanitary disposal of all the slop, offal, garbage and animal matter of the city of St. Louis by the Merz process.

It is obtained by the Municipal Assembly of the city of St. Louis as follows: Sec. 1. Ordinance No. 15,718, authorizing the Mayor and Health Commissioner of the city of St. Louis to enter into a contract for the sanitary disposal of all the slop, offal, garbage and animal matter of the city of St. Louis by the Merz process is hereby repealed.

Right upon the heels of this ordinance, Mr. Nelson introduced another which provided for the sanitary disposal of the garbage of the city by any process which proves, upon investigation, to be equal to the work, the letting of the contract to be made by the Board of Public Improvement in the usual form. This ordinance is drawn up with the view of giving the contract to the cheapest bidder and not force it into the hands of a single company without giving anyone else a chance. In the box with these two ordinances is a communication from Johnson & Find, engineers, in which they state that any process which does not consume the garbage is likely to give out bad odors and are not satisfactory. Any process which leaves a residuum is likely to become a nuisance.

There is no reason why either one or both of the ordinances should not be passed, and there is every reason why they should.

Yesterday, in accordance with the ordinance now in existence, the Mayor received bids, or rather a bid, from the St. Louis Reduction Co. for disposal of the garbage at 3 cents per 100 pounds, to be delivered by the city at the works of the company.

This contract will go to the Council for approval, and is an exact counterpart of the one sent in before.

In all probability the two new ordinances and the new contract will come up together for consideration. The bid from the St. Louis Reduction Co. is a very low one, but it is not likely that the two ordinances will prove the most satisfactory to the Council is yet to be learned.

Board Meeting.
The Board of Public Improvement held a regular meeting this morning. Sup't. Jas. Carroll of the Work-house made a rather peculiar request of the board. It is the custom under a board rule for the superintendent of the Work-house to send a weekly report of the work done by the prisoners. Mr. Carroll asks that he be excused from making this report during the month of November, as he is but very little work done as the brush factory is closed and the quarry cannot be worked in winter. His request will be granted.

A number of property subdivisions were approved.

A proposition concerning the purchase of land near the Twenty-first street bridge was received from the St. Louis Reduction Co. Capt. Dan A. Adams, the Harbor Commissioner, was given a leave of absence for a week.

There are some patent medicines that are more marvelous than a dozen doctors' prescriptions, but they're not those that profess to cure everything.

Everybody, now and then, feels "run down," "played out." They've the will, but no power to generate vitality. They're not sick enough to call a doctor, but just too sick to be well. That's where the right kind of a patent medicine comes in, and does for a dollar what the doctor wouldn't do for less than five or ten.

We put in our claim for Dr. Pierce's Golden Medical Discovery.

We claim it to be an unequalled remedy to purify the blood and invigorate the liver. We claim it to be lasting in its effects, creating an appetite, purifying the blood, and preventing Bilious, Typhoid and Malarial fevers if taken in time. The time to take it is when you first feel the signs of weariness and weakness. The time to take it, on general principles, is NOW.

A GREEN KENTUCKY WIDOW'S EXP-RIENCE WITH SWINDLERS.

Mrs. Angeline Conrad Appears Against Walter Willard, Alias "Big Walter," in Justice Duffy's Court—The Woman's Pathetic Story—How She Was Deceived \$2,000 in Green Goods—Value of \$300—The Prisoner Discharged.

New York, Nov. 11.—As briefly telegraphed to the Post-Dispatch yesterday, Mrs. Angeline E. Conrad, the guileless Kentucky widow who came to New York to buy \$3,000 green goods, told a touching story of her life, in the Essex Market Police Court yesterday.

Mrs. Conrad is a small, bronzed, overworked little woman. Her hands are calloused with years of toil, her glossy black hair is touched with gray on her temples, and her steady blue eyes were downcast beneath the brim of her beaver hat. Her cool composure of Sunday had vanished, the nervous twitching of her mouth and the tremulous working of her fingers told plainly her agitated feelings. She sat with her back to Walter Willard, alias "Big Walter," one of the gang of green goods swindlers who conked Mrs. Conrad from her Bracken County home. He leaned back in his chair, his feet on a stool, and he looked at her with a cold, calculating eye.

A DETECTIVE IN TROUBLE.

The Manager of the "Evening States" Before a Commission.

New Orleans, Nov. 11.—J. P. Pinckney Smith of the Evening States was yesterday given a preliminary hearing before United States Commissioner Wright on the charge of violating the lottery law. Mr. Smith testified that he had issued orders to his employees not to insert any lottery advertisements. The manager referred to was published without his knowledge, and was an advertisement of the paper and not of the lottery company. Commissioner Wright released Mr. Smith on his own recognizance to answer the charge before the United States Court.

Many Clergymen, Singers, actors, and public speakers use Ayer's Cherry Pectoral. It is the favorite remedy for hoarseness and all affections of the vocal organs, throat, and lungs. As an anodyne and expectorant, the effects of this preparation are promptly realized.

Ayer's Cherry Pectoral has done great good. It is a splendid remedy for all diseases of the throat and lungs, and I have much pleasure in testifying to its merits. (Rev.) C. M. Nichols, No. 128, Mass.

In my profession of an auctioneer, any affection of the voice or throat is a serious matter, but at each attack, I have been relieved by a few doses of Ayer's Cherry Pectoral. This remedy, with ordinary care, has worked such a magical effect that I have suffered very little inconvenience. I have also used it in my family, with very excellent results. In coughs, colds, &c.—Wm. H. Quarity, Milford, So. Australia.

You cannot fail to be suited in the cloak department at Crawford's. The styles are there in greatest variety, and the prices are equally as varied, but all cases below all competition. The aim at Crawford's is to give better value, in whatever grade of article you buy, than you can get in another house for the same money or for 25 per cent more money. Wear this in mind when you want anything, a wrap in especial. The numbers of customers who went out to-day to "look around" and then came back to buy proves the assertion.

RELEASED FROM JAIL.

His Spree Ended in Death—A Lawyer Fined—Texas Topics.

FR. WORTH, Nov. 11.—Joseph Boyce has been released from jail by the new judge on his own responsibility. Boyce was placed in jail fourteen months ago for safekeeping, the court having declared him to be insane. He recovered his right mind in a few months, but the laws of Texas provide no legal method of releasing him and the old judge was unwilling to take the responsibility of it and so the fellow lay in jail a while longer.

DALLAS, Nov. 11.—John R. Kountz, formerly chief deputy in the county clerk's office, was found dead in bed yesterday. His wife obtained a divorce from him last April on account of his dissipation, but remarried him again. The excitement of the election and the spree which he went on in consequence caused his death.

The cases in this city against Bob Land for shooting have been dismissed.
DUDLEY G. WOOTEN and **HENRY HOFERMAN**, attorneys, while arguing in court, got personal and the latter threw an inkstand at Wooten, spattering the ink all over the face and spectators. He was fined \$5.

DOMINICA MARI, a member of the Italian colony, was found murdered. No cause is known.

WACO, Nov. 11.—An infant son of H. J. H. Mahler was killed by a fall from a window and his skull was badly crushed in.

DEKINSON, Nov. 11.—The house of R. P. Burhaus, city editor of the *Dakota Free Press*, was struck by lightning and nearly demolished.

A TEXAS WAR.

Threats of Rescuing Indicted County Officials From Jail.

CAINSVILLE, Tex., Nov. 11.—Word comes from Graham county of Texas that there is danger of a desperate attempt to rescue a number of indicted men from jail during their trial. In September, 1888, the Marlow brothers were in charge of deputy marshals when a mob took them away and hanged them. Two years ago indictments have been found for their murder and they are against Sheriff Collier, his deputies, several constables, Ed Johnson, the deputy who had them in charge, and the county attorney. In fact, every peace officer in the county is now in jail awaiting trial. Eugene Lagan, Clint Rutherford and Vernon Wilkerson are now on trial with a prospect of conviction. There are 35 witnesses to be examined. The people in the county are determined the men shall not be convicted and they stand about the jail and Court-house with Winchester rifles and the cordon of twenty-five armed deputy marshals which surround the jail. A company of troops has gone from Fort Hill, and a company of Rangers have been ordered from Amarillo to prevent a mob from rescuing the prisoners.

HORRIBLE, IF TRUE.

Firebugs May Have Caused the Dupont Powder Works Explosion.

WILMINGTON, Del., Nov. 11.—It is now believed by many that the terrible explosion of the extensive Dupont Powder Works near this city, on Oct. 7 last, which resulted in the death of ten workmen, an old lady and a child and the injury of a number of others, may have been the work of gang of firebugs, who are secretly organized to do harm to the Dupont family. The burning of the large barn belonging to Wm. Dupont, near Rockland, on Saturday night, was no doubt the work of firebugs. The firebugs are supposed to be revengeful employees who were discharged at the death of Gen. Henry Dupont at Dupont, as several attempts were made last spring and summer to blow up the Dupont Powder Works. It is a large reward of \$5,000 who are offered and that detectives will be put on the case.

ENDED IN A DOUBLE TRAGEDY.

The Love Affair of Robert Shurtle and Ida Snyder.

LA PORTE, Ind., Nov. 11.—Robert Shurtle, aged 16, shot and killed Miss Ida Snyder, aged 17, yesterday afternoon, then killed himself. Shurtle had objected to her driving with another young man, and she, angered by his assumed authority over her, refused to drive him any more. Yesterday she saw him driving with his sister and beckoned to him to get out of the buggy. He did so and his sister drove away, leaving the two together. He did not return home and his parents drove out to the road to see if they could find him. They found the dead body of Ida Snyder with a bullet hole in her head and their son with three wounds in his head and arms. He lived for a few hours, but he was unconscious.

The Feticide Murder Trial.

CRAWFORDSVILLE, Ind., Nov. 11.—Dr. Jamison and Hodge, professors of obstetrics in the Indiana Medical College, were the only witnesses examined for the defense in the Feticide trial yesterday. Both testified that there should have been conception of brain after death, and certainly should be in Mrs. Feticide's case, where death occurred in a convulsion. A coroner's jury has been found in the brain and spinal cord.

Jay Cooke & Co.'s Last Dividend.

PHILADELPHIA, Pa., Nov. 11.—On Monday the final dividend, 14 per cent, will be paid the creditors of Jay Cooke & Co. The failure of this house in 1873 caused the financial panic of that year. The firm's liabilities were then \$11,000,000 and there were 1,200 creditors. The assets were paid, including the final dividend, 10 per cent on \$1,610,000, to which sum the liabilities were reduced by compromise and other means, or \$999,000.

WILL DOWN DEMPSEY.

FITZSIMMONS MORE THAN A MATCH FOR THE NONPAREIL.

St. Paul Shady and Pat Duffy say—Smith and Godfrey To-Night—Maj. Thomas' Retirement From the Turf—Latham's Future—The Bantam Fighters—Racing, Base Ball and General Sporting News.

THE much talked of and much looked for match between Jack Dempsey and Bob Fitzsimmons seems about to be made at last, says Macdonald. It is to take place before the Olympic Club, in New Orleans, Jan. 14, for a purse of \$12,000, of which \$2,000 is to go to the loser. In other words, the whipped man will get twice as much money as John J. Heenan and Tom Sayers had up for stake money when they battled for the championship of the world. As an evidence of what some really knowledgeable sporting men think of the affair, I will say that I met Pat Shady and Pat Duffy, the latter of New Orleans, in the cafe of the Hoffman House on election night. We got talking about the men, when Shady said: "I have always regarded Dempsey until now as the best man in the world of his weight, but I'm inclined to think from what I have heard of this Australian that Jack is going up against it this time, and I think I'll have a bet on Fitzsimmons when they meet." "I think I will myself," answered Duffy. "Dempsey is a wonder, but this Australian has proved himself a good one, too."

The Australian is reported as saying that he expects to win in sixteen rounds or less. I can tell him now that if Dempsey fights him thirteen rounds he will defeat him. He can't win with his advantage in height and reach do the Nonpareil in a center he will hardly be able to do him at all. In my estimation Fitzsimmons must be able to cut out the pace and make the running right along or he will never get the purse. Time tries people and never gets the purse. Time tries people and never gets the purse. Time tries people and never gets the purse.

Smith and Godfrey To-Night.

The Puritan Athletic Club of Long Island, of which Dick Roche, formerly of St. Louis, and Jimmy Wakely are the controlling spirits, will be formally opened this evening with a set-to between Ed Smith, of Denver, and George Godfrey, of Boston. All the sports writers have picked the Boston colored pugilist as a winner and he is a strong favorite in the betting. Notwithstanding all this Smith is true to the old motto, "I will win or I will die." Godfrey is a very clever fighter, but so is Smith, and the latter is just as hard if not harder a hitter. The most of his race, Godfrey is not a man who will stand much severe punishment, and if Smith can make matters worse enough for him to while, the negro will undoubtedly stop. Smith's courage has never been tried in this country, where he has only resided for a few years, and being his home; but he probably possesses the build, dog tenacity. He whipped La Blanche and Mike Cleary with ease and made a good showing against Jack Jackson. The Australian, although it is generally conceded that the Australian is the better of the contest, but Jackson gained an easy victory over Godfrey. Smith has not done much fighting in America and to certain extent is unknown quantity. The chances are, however, that he is a better man than Dominick McCreary, who has been in the ring for some time. Smith is a hard man to keep sober and straight. Of course if he is in the fight, but he is being carefully watched by the most of his race, Godfrey has a chance to do much imbibing. The fact that the Eastern writers have selected him as the favorite winner goes for nothing. Many of them had Kilrain set down as a sure winner in his fight with Sullivan, and with few exceptions they picked Johnny Murphy to whip George Dixon. Almost all the sports writers have named the best Frank Slavin and at no stage of the game had any of his favorites the slightest chance to win in either respect. A defeat for a man could select big, lumbering Joe McEliffe to whip a man of Slavin's evident ability is a mystery, and it is not likely that any of the winners of the other fights either, Slavin or Slavin, have any advantage over men should know how these battles would result. It is only in picking losers as winners that the sports writers are so sure of their opinions Smith will probably whip Godfrey to-night.

Latham's Sore Arm.

Artie Latham may or may not be with the Cincinnati team next season, with the chances very much in favor of the negative part of this proposition, says the Cincinnati Enquirer. It looks as if the Duke's stay with the Reds is destined to be a short one. There seems to be very much in favor of the negative part of this proposition, says the Cincinnati Enquirer. Two Separate Schemes to provide athletic facilities for the students of Columbia College.

have been under consideration for some time, says the New York Star. One of these is for the erection of a gymnasium, the other for the purchase and improvement of grounds for athletic sports. The latter has been brought to a successful issue at the meeting of the Alumni Association, which has determined to purchase grounds, and this committee is authorized to do so at once.

The grounds are situated near Williams-bridge, on the line of the New York and Harlem Railroad.

They are to be purchased at \$4,000 an acre, or \$80,000. They are to be purchased at \$4,000 an acre, or \$80,000. They are to be purchased at \$4,000 an acre, or \$80,000. They are to be purchased at \$4,000 an acre, or \$80,000.

Recent private information tends to prove that Billy Murphy must have lost his go.

with Albert Griffo, or "Young Griffo," under conditions. Murphy has always claimed that he was dragged over, overcome by some sudden illness, the origin of which he could not account for, and that his Australian friend had a well-known sporting man, says that the day after Griffo got the decision from Murphy, J. J. Macdonald, of San Francisco, Murphy's backer, posted \$500 with the Melbourne Sportsman and challenged Griffo to fight on a basis for \$5,000 a side. The offer was flatly declined by J. J. Macdonald, who is Griffo's backer, and it was said that Griffo's backer had been arrested on suspicion, and the authorities fear that he will be lynched.

Wm. F. Price, a Railroad Man, Has a Rough Experience in a Sale.

Judge Cady tried John Kelly \$50 and costs in the first District Police Court this morning. Kelly was charged with disturbing the peace. Between 1 and 2 o'clock this morning he was in McManus Bros' saloon on Market street near Sixth when Wm. F. Price of 1202 North Seventh street entered the place. Price was intoxicated and Kelly, it is said, took advantage of his condition. Following the man into a rear passage he grabbed him by the throat and choked him down upon the floor. Price claims he was choked almost to death, and that he was then thrown through his pockets and secured two steel knuckles and a nickel. When Price recovered from his fall he was bleeding from the nose and had a cut on his forehead. Kelly was arrested by Officer Connelley of the court house and taken to the police station. Kelly has not paid the fine, and will be sent to the Work-house. Both of the men are railroad section hands.

After Big Game.

Ten members of the Pierson Gun Club of Pierson, in the northern part of Indiana, arrived in the city this morning on their way to Jonesboro, Ark., where they expect to spend a couple of weeks in hunting and fishing on the St. Francis River. The party consists of J. and Oliver H. Boile of Sydney, Ind., and Jacob Ulery, W. J. Hammond, Dr. Long, M. R. Radcliff, Dan J. Strawn, D. Snyder, C. Nichols and B. D. Heagy. They arrived over the Washburn road and will leave for an Indian Mountain train this evening. They have three hunting dogs with them, an English fox hound, a spaniel and a Gordon setter, and also a hunting tackle, a dozen small arms for every member of the party and a complete camping outfit.

TELEGRAPHIC BRIEVITIES.

John Barrett and Jack Groves, said to be "shell men" got into trouble with Frank Tucker in Illinois' saloon at Vickburg, Miss., where they were drinking. Each man emptied his gun, and several other persons who were present took a hand in the shooting, but not a man was hit.

A sensational tragedy occurred twenty-five miles south of Birmingham, Ala., yesterday afternoon. R. H. Brinkley, a watchmaker, was shot and instantly killed by U. L. Wilson, a merchant driving business in the same neighborhood. Wilson, it appears, discovered evidence that Brinkley was on very intimate terms with Mrs. Wilson, and aiming himself went to the watchmaker's store and shot him dead without a word of explanation. Wilson is now under arrest.

The case of Joseph R. Banks and John Cochrill, charged with the murder of John J. Linterton at Nashville, Tenn., was again continued yesterday. Linterton was killed in 1888. He was the editor of the *National Reform*, a Republican weekly paper, and was killed because of the publication of an article in which he charged that the latter was tried two years ago, but the jury failed to acquit. Banks' bail has been returned from \$5,000 to \$2,000.
